

Sustainability Statement

Prana Credit Solutions

19/82 Upper Pitt St
Kirribilli
NSW, 2061

At Prana Credit Solutions, we believe that to operate our business successfully and responsibly we must:

- **Minimise and provide a positive impact on the environment**
- **Support our local community and industry in their growth and harmony**
- **Ensure that our suppliers, staff and customers are treated fairly and equitably**
- **Maintain healthy financial results**

We recognise that these objectives are not exclusive from each other and can work together to create economic, environmental and social sustainability.

This business became a member of Better Business Partnership (BBP) in February 2016 and undertook their latest Appraisal in February 2016. The Appraisal provides our business with a report of our strength and weaknesses, and actions we can undertake to improve our sustainability performance with the support of BBP. We are committed to this process recognising that being a sustainable business is not a one-time effort but an ongoing process of education, evaluation and action.

The Better Business Partnership promotes sustainability achievements, visit:

The Better Business Partnership

The Better Business Partnership is a sustainable business program. This program recognises and promotes those businesses who already have made achievements in sustainability as well as facilitating the improving the performance of all businesses.

Funded by the Ku-ring-gai, North Sydney and Willoughby City Councils, the project freely assists businesses in these Council areas.
